# 1 Greetings from the Dean

Dear new Master students,

On behalf of all our faculty and staff here at the Department of Economics, I would like to welcome you to our Master Program. We are glad that you have chosen to continue your education in economics here at LMU Munich, and we are sure that you will find it to be an excellent decision in the course of the coming years.

Our department is one of the leading research and teaching institutions in Europe. Our research focuses on applied and policy-relevant topics in a wide range of economic fields and is based firmly on rigorous methodological foundations. With this profile, the members of our faculty publish successfully in our discipline's best international journals. Our Master Program reflects the department's strengths in research. It contains, on the one hand, a mandatory core program, designed to equip you with the basic tools and methods required for any advanced job in economics. On the other hand, our curriculum leaves you considerable freedom to develop your professional skills by choosing elective courses in your fields of interest. The flexibility and the diversity in our Master Program opens up a wealth of career opportunities, both in academia and in many other professional areas. Our graduate students are regularly recruited by large industrial firms, consultancies, banks, insurance companies and research institutes, as well as by national and international public institutions. And if you decide to obtain a doctoral degree and continue with a career in academia, then our Master Program will provide you with an excellent foundation for your own research.

Whatever your personal objectives, we put considerable effort into providing a pleasant and stimulating learning environment. This brochure is intended to familiarize you with the program as well as the teaching and organisational structure of the department. It will help you find out how our department's resources can assist you in reaching your own goals, and I would like to encourage you to make full use of these resources. Whenever you have questions about your studies or about administrative issues, please do not hesitate to approach your administrative advisors or our faculty. We are always happy to answer your questions, or direct you to those who can give you the advice you need.

Welcome and good luck!

Carsten Eckel

Dean of the Department of Economics

## **2 Short Description of the Program**

### **2.1 At glance**

The Department of Economics at LMU Munich offers a 4-semester Master Program in Economics taught in English, leading to a Degree of Master of Science (M.Sc.).

Building upon thorough training in Economics at the Bachelor's level, the Master Program provides students with analytical and logical problem-solving skills, deepens their knowledge of Economics and brings them to the frontiers of current research. Master students are trained for a demanding international professional career, and/or for an academic career in high-level economic research. From a widely structured course catalogue, students have the option to specialize in a particular field or choose the research-orientated courses that will prepare to continue with our Ph.D. Program, since the content of these courses overlaps to a large extent with that of the first year Ph.D. course.

In order to graduate students must have accumulated a total of 120 ECTS credits (European Credit Transfer System). The work load is 30 ECTS credits per semester; which corresponds to roughly 900 hours of study.

In the first semester, all students have to attend an array of compulsory courses, described in section 2.3.1 of this document that provides them with the necessary knowledge.

In the second and third semesters, students choose courses from a wide selection of modules and have can specialize and/or opt for research-oriented courses. Students write a Master Thesis in the fourth semester, demonstrating their ability to produce independent scientific work in a specific area of economics.

30 ECTS	30 ECTS	30 ECTS	30 ECTS

## 2.3 1<sup>st</sup> Semester: Basic Education

In the first semester, students attend basic lectures and tutorials in:

- Mathematics for Economists
- Econometrics
- Microeconomics
- Macroeconomics
- Public Economics

These compulsory modules (CM) provide students with the indispensable theoretical background and necessary tools to further pursue specialize in their desired field of economics.

### 2.3.1 2<sup>nd</sup> and 3<sup>rd</sup> Semester: Specialization

In the second semester students can start specializing into their desired field. They can choose from a wide array of courses. In general there are very little restrictions on the choice. 30 ECTS credits should be obtained per semester with courses out of the OM.

In the 2<sup>nd</sup> semester it is recommended to choose one 12 ECTS course of the “Studies in...” modules. In addition, students should take three 6 ECTS courses from the “Topics in...” modules in order to obtain the recommended 30 ECTS credits.

In the 3<sup>rd</sup> semester we recommend to choose one of the following combinations:

2 x 12 ECTS and 1 x 6 ECTS

1 x 12 ECTS and 3 x 6 ECTS

5 x 6 ECTS

Again the courses are organized in the Optional Modules as explained above.

Please note that at least in one of the 12 ECTS courses students should work on an independently formulated research problem and present the results in a term paper. It is recommended to take one course graded with 12 ECTS each in the 2nd and in the 3rd Semester, such the combination of 5 x 6 ECTS courses in the 3rd semester should be avoided.

We plan to offer a total of six different courses graded with 12 ECTS credits and a total of six different courses graded with 6 ECTS credits every semester.

An actual semester preview on the offered 6 and 12 ECTS courses can be found here:

<http://www.en.master.econ.uni-muenchen.de/courses/index.html>

### 2.3.2 12 ECTS Courses

Please note that places in all 12 ECTS courses are limited, especially those courses requiring an oral presentation and a written term paper. In order to participate in such a course you have to register well in advance.

The 12 ECTS courses are essential for the preparation of your master thesis and you should have taken at least one before beginning to work on it. Many master thesis advisors require that you have taken a 12 ECTS course with them.

You can sign up for 12 ECTS courses starting with your second semester. There are no further formal prerequisites to sign up for them. However, for a particular course the instructor may strongly recommend certain pre-knowledge. We recommend that you take one 12 ECTS course in the second and at most two of those courses in the third semester. Note that you cannot take more than three 12 ECTS courses.

A list of available 12 ECTS courses can be found on the master homepage:

<http://www.en.master.vwl.uni-muenchen.de/courses/index.html>

#### 2.3.2.1 Registration

All 12 ECTS courses require registration. The timeline for registration can be found in section 6 of this document. Signing up for these courses is done via LSF <https://lsf.verwaltung.uni-muenchen.de> ("Register for courses"). When signing up you can set your priorities to the particular 12 ECTS course (highest priority = 1). It makes sense to sign up for several of those courses you have an interest in with descending priorities. If you only sign up for one of those courses you run the risk in case of excess demand of being assigned to a different 12 ECTS course at random.

**Important:** Within the deadline, the exact timing of the registration is not relevant for the assignment of places.

The course seats are assigned at random to all eligible students, taking into account the specified priorities. Unfortunately, it cannot be guaranteed that all registered students receive a place in their favored 12 ECTS course. The economics faculty tries to provide all students with a place in their desired course and so far we have succeeded.

After the places have been allocated, registered students are informed via email about their assigned 12 ECTS course.

#### 2.3.2.2 Clearing Process

If there are still vacant places in courses after the assignment process, or have become vacant due to someone's resignation, those places will be assigned through the clearing process to students on the waiting list.

The clearing process allocates the remaining vacant places in 12 ECTS courses. Those who have missed the above registration deadline can apply to have a place

assigned during this clearing process. To be put on the waiting list and participate in the clearing process, please send an email with your name, "Matrikel"-No and the preferred 12 ECTS course to [isc@econ.lmu.de](mailto:isc@econ.lmu.de).

The assignment is carried out with the same procedure as a random allocation process.

**Important note:** As the registration for 12 ECTS courses always happens well in advance. Please note that you have to sign up for these courses that take place in the following (not the current) semester on the LSF.

### 2.3.2.3 Binding Registration

Your registration for a 12 ECTS course becomes binding, once you have participated in the preliminary discussion and have been assigned a topic for your term paper. To resign after the binding registration is only possible for a very substantial reason. Resignation has to be communicated to the particular chair in writing. If you signed up and fail to attend without a substantial reason and the consent of the chair, you are given the grade 5.0 for that course.

### 2.3.3 Specialization

In the 2<sup>nd</sup> and 3<sup>rd</sup> semester, students freely choose courses from a wide selection of modules. Students have the possibility to **specialize** and/or opt for **research-oriented courses**. We offer the following fields of specialization:

- Microeconomics and Strategic Interaction
- Applied Econometrics
- Public Sector Economics
- Macro and International Economics.

All of the Department of Economics offered courses for the specialization can be found on the master homepage under [http://www.en.master.econ.uni-muenchen.de/download/specialisation/specialisation\\_ws20162.pdf](http://www.en.master.econ.uni-muenchen.de/download/specialisation/specialisation_ws20162.pdf)

In order to acquire a certificate of specialization, students must obtain at least 24 ECTS credits from courses within the specific field and write their Master thesis in the same field.

In addition to the certification for studies in a special field, students can acquire a certificate for obtaining 18 ECTS credits in research-orientated courses. Opting for research-oriented courses will especially be the choice for those students who plan to continue their studies in a PhD-program.

To receive the certificate an [online form](#) has to be filled in according to the desired specialization and the final transcript has to be uploaded.

### **2.3.4 Master Thesis**

The thesis will be written in the 4th semester. This should be an independently written, scientific work in a specific field of economics. The thesis has to be completed over a period of 22 weeks. The Master Thesis is a Compulsory Module of its own.

In the Master Thesis students prove their ability to independently apply scientific methods of economics and to write an original piece of research.

Students should build up detailed knowledge in the planning, realization and evaluation of a special issue in economics. This concluding scientific work should be an independently written research thesis in any area of economics. A suitable supervisor for your thesis can be chosen from all professors of the department who are currently teaching over the period of writing your thesis. Please refer to the information on the planned sabbatical semesters of professors.

In preparation for the thesis, please note that at least in one of the 12 ECTS courses in the 2nd or 3rd semester students should work on an independently formulated research problem and present the results in a term paper, this term paper presenting a decision-making support for prospective supervisors.

## 2.4 Modules

In the Master Program in Economics each course is assigned to a module. In general we distinguish between Compulsory and Optional Modules.

### 2.4.1 Compulsory Modules (CM)

This Compulsory Modules must be taken without exception:

- Mathematics for Economists
- Econometrics
- Microeconomics
- Macroeconomics
- Public Economics
- Master Thesis in the 4th semester

### 2.4.2 Optional Modules (OM)

Here you can choose from a number of alternatives according to your desired specialization. There are two types of modules: 12 ECTS and 6 ECTS modules. The required registration for 12 ECTS Courses is explained in part section 2.2.3.

Please note: For Optional Modules, modules are 'titles' for a variety of courses. And a particular course can be assigned to a number of modules; there is a maximum of flexibility to choose out of the different courses in the Optional Modules.

OM with 12 ECTS courses:

- Studies in Economic Theory"
- Studies in Economic Analysis and Empirical Economics"
- Studies in Public Economics"
- Studies in Economic Research"

OM with 6 ECTS courses:

- Topics in Economic Theory A
- Topics in Economic Theory B
- Topics in Economic Analysis and Empirical Economics A
- Topics in Economic Analysis and Empirical Economics B
- Topics in Public Economics A
- Topics in Public Economics B
- Topics in Economic Research A
- Topics in Economic Research B

Each module is completed either with a single module-examination or a specified number of sub-module exams. The modules in the curriculum consist of abstract courses. The attribution of the concrete courses can be obtained from the university calendar and from LSF.

### 3 Student Exchange and Transfer of ECTS-credits

The Department of Economics has several established exchange programs with several European and North-American Universities.

Within the ERASMUS-program for Master students we cooperate with the following Universities:

- University of Copenhagen
- University of Oslo
- Hanken School of Economics
- Maastricht University
- University of Bergen
- University of Stockholm
- Universität Prag
- Ecole Normale Supérieure de Cachan (Paris)
- Université Libre de Bruxelles
- Université des Sciences Sociales de Toulouse
- Université de Lausanne
- Università di Bologna
- Università Padua
- Universität Bern
- Universität Zürich

For Master students we have special agreements with the University of California (Berkeley) and the University of Wisconsin (Madison).

We recommend the 3<sup>rd</sup> (and possibly also the 4<sup>th</sup>) semester in the Master program for a study abroad. Please be aware that the participation in an exchange program may extend the duration of your studies.

More information (in German) can found here:

[http://www.vwl.uni-muenchen.de/studium/ausl\\_studium/index.html](http://www.vwl.uni-muenchen.de/studium/ausl_studium/index.html)

Periods of study and ECTS credits from other Master Programs in Economics can be transferred to our program if the individual courses are equivalent to the courses we offer within our program. Please note the detailed information regarding the acceptance of ECTS credits from other universities on the ISC homepage.

## 4 Administrative Advice

The Compulsory Module exams of the 1<sup>st</sup> semester are scheduled and coordinated by the examinations office (ISC – Informations- und Service Center Wirtschaftswissenschaftliche Prüfungen) and all other exams are scheduled and coordinated by the respective chairs.

### 4.1 Transcript of Records

After enrolment you have access to your personal course and exam administration account (LSF) with your LMU student e-mail. Your complete transcript with all course achievements as well as a transcript containing only the courses you have passed is available on LSF at

<https://lsf.verwaltung.uni-muenchen.de/>

### 4.2 Registration for the exams

The schedule of Optional Modules exams will be published online by the respective chairs. For information about the registration and deregistration procedure and deadlines please see the ISC homepage (in German).

[http://www.isc.uni-muenchen.de/pruef\\_org/index.html](http://www.isc.uni-muenchen.de/pruef_org/index.html)

Incapability while taking an exam (e.g. sickness) must be claimed immediately and credibly at the latest before the grades of the exam are published. In case of sickness we require a doctor's note giving details on the extent of the sickness and inability to take the exam. More specifically, the doctor has to fill in the following form

[http://www.isc.uni-muenchen.de/files/allgemein/form\\_krank\\_20120910.pdf](http://www.isc.uni-muenchen.de/files/allgemein/form_krank_20120910.pdf)

There is no need to claim incapability when you cannot take a single exam and decide not to take part. However it is recommended to inform the ISC about inability to take exams for a longer period of time.

### 4.3 Grading Scale

The Master of Science in Economics is based on the European credit transfer system (ECTS). Students must acquire a total of 120 ECTS credits for graduation. For every passed exam students will receive a certain number of ECTS credits that correspond to the workload of the course. Courses usually are attributed 6 or 12 ECTS credits.

The exams are graded according to a grading scale that ranges from 1.0 to 5.0, where 1.0 is the best grade, 5.0 means „failed“ and 4.0 is the minimum grade required for passing, with intermediate steps between the even grades ending on .3 and .7. The grades 4.3 and 4.7 do not exist. Each passed exam enters the grade

point average (GPA) with the corresponding number of ECTS credits, the GPA consists of all credits earned.

If at the end of your studies you have acquired more than the total required number of ECTS-credits, then only the better grades of that final semester count towards your GPA.

Additionally, after the Master's examination the GPA of every student is ranked among all graduates. The **ECTS-grades** give an impression about the achievement of a single student in relation to the other graduates of the program.

The following ECTS-grades will appear in the transcript of records:

- A for the best 10%
- B for the following 25%
- C for the following 30%
- D for the following 25%
- E for the following 10%

#### **4.4 Post-exam review**

Students have the opportunity to review their exams after correction and grading. Time and place of the post-exam review will be announced by the respective chair or by the responsible lecturer.

#### **4.5 Repetition of exams**

Generally it is possible to repeat failed exams provided that the same course is offered again within the regular period of study (and possible time extensions).

#### **4.6 Master examination**

The regular period of study consists of 4 semesters. Students have passed the Master examination if they have completed at the latest by the 6<sup>th</sup> semester:

- all module exams or partial module exams of the Compulsory and Optional modules, AND
- the required number of 120 ECTS credits

The Master's examination counts as

- failed for the first time if the regular period of study has been exceeded by more than one semester for reasons within a student's control
- definitely failed if the regular period of study has been exceeded by more than two semesters for reasons within a student's control

- definitely failed if there is no possibility to repeat a failed module exam or a partial module exam within the regular period of study.

## **4.7 Final documentation**

The final documents contain only the passed exams. Failed exams will not be mentioned in your final certificate. After graduation you will receive the following documents:

### **1. Master-Certificate (DE & EN)**

The Master Certificate certifies the award of the academic degree.

### **2. Master-Record (DE & EN)**

The Master-Record includes title and grade of the Master Thesis as well as the GPA.

### **3. Transcript of Records (DE)**

The Transcript of Records provides a listing of all completed modules and their attributed module exams with number of ECTS-credits and grades.

### **4. Diploma Supplement (EN)**

The Diploma Supplement gives information about the type and level of the Master's degree, the status of the Ludwig-Maximilians-University Munich as well as detailed information about the Master Program.

### **5. Specialization Certificate (EN)**

Finally, there is the optional certificate on a specialization during the studies for the Master's degree. The available specializations and the necessary number of ECTS credits in each field are:

- Research (18 ECTS)
- Applied Econometrics (24 ECTS)
- Microeconomics and Strategic Interaction (24 ECTS)
- Macro and International Economics (24 ECTS)
- Public Sector Economics (24 ECTS)

In general students can obtain only one specialization certificate for their studies. At most two certificates can be obtained, but only if one of the certificates is "Research." The course catalogue states towards which field of specialization a course can be counted. The certificate can be requested from the graduate office after obtaining all necessary ECTS credits and completing the Master Program.

## 5 Semester Dates

The official semester lecture dates for the current and the next term are as follows:

Winter term 2016/2017	17 October 2016 until 11 February 2017
Summer term 2017	24 April 2017 until 30 Juli 2017
Winter term 2017/18	16 October 2017 until 10 February 2018
Summer term 2018	09 April 2017 until 14 Juli 2017
Winter term 2018/19	15 October 2018 until 09 February 2019
Summer term 2019	23 April 2019 until 27 Juli 2019

There are no lectures during the Christmas break from 24 December until 6 January. In the summer term there are no lectures on Tuesday after Pentecost.

## 6 Important dates

### General planning winter term 2016/17

6 October 2016	Start of the first compulsory course
17 October 2016	Official start of lecture period
?? November 2016	Graduation ceremony
07-18 November 2016	Registration/deregistration period for: Macroeconomics and Mathematics for Economists
12 December 2016	Registration/deregistration period for other exams
11 January 2016	End of registration period for other exams
27 January 2016	End of deregistration period for other exams
11 Februar 2016	End of lecture period

Other dates and events are announced by e-mail, on the homepage and in the lectures and tutorials.

## Timeline for the registration process for the 12 ECTS courses

Note that you always have to sign up ahead of time: e.g. sign up in the winter semester for courses in the summer semester.

Deadline for the next semesters:

	SummerTerm 2017	WinterTerm 2017/18	SummerTerm 2018
Announcement of the offered 12 ECTS courses to the ISC	till 11.11.2016	till 02.06.2017	till 10.11.2017
Registration Period via LSF (Sec 2.2.3.1)	14.-25.11.2016	05.-16.06.2017	13.-24.11.2017
Deadline for clearing process (Sec. 2.2.3.2)	09.12.2016	30.06.2017	08.12.2017

## Exam dates

The schedule of exams will be published in good time on the homepage of the ISC (Compulsory Modules) or the homepages of the respective restricted chairs (Optional Modules) and in the lectures and tutorials.

## Planned Research Sabbaticals

During their sabbatical the professors do not offer any courses and generally they do not supervise Bachelor and Master's theses. The following table lists (without commitment) the prospective sabbaticals of the faculty.

Professor	next sabbatical planned for
Prof. Dr. Davide Cantoni	WS 2016/17
Prof. Dr. Niklas Potrafke	WS 2016/17
Prof. Dr. Klaus Schmidt	SS 2017
Prof. Dr. Monika Schnitzer	SS 2017
Prof. Dr. Uwe Sunde	SS 2017

## Professors on leave

The following professors of the department are currently on leave or will be retired:

Professor	
Prof. Dr. Bernd Huber	on leave until: 30 September 2019(President of the
Prof. Dr. Dalia Marin	retirement: 31 March 2017

## 7 Central Institutions for Students

### 7.1 Examinations Office

**ISC (Informations- und Servicecenter Wirtschaftswissenschaftliche Prüfungen)**

<http://www.isc.uni-muenchen.de/index.html>

**Head:**

Dr. Andreas Neuhoff

Ludwigstr. 28/front building, ground floor, room 019A

phone: 0049-89-2180-3107

e-mail: [isc@econ.lmu.de](mailto:isc@econ.lmu.de)

*Office hours:* Monday and Tuesday, 10-12am (no pre-registration necessary)

**Administrative office:**

Ludwigstr. 28/front building, ground floor, room 020

phone: 0049-89-2180-2212 / 6912

e-mail: [isc@econ.lmu.de](mailto:isc@econ.lmu.de)

*Office hours:* Monday, Tuesday, Thursday and Friday, 10-12 am, Thursday 2.30-4 pm

### 7.2 Student Advisory

If you have questions concerning your studies please do not hesitate to contact the Graduate Office. If your questions relate to exams and grades please contact the Examinations Office.

**Graduate Office**

Caroline Rupprecht

Schackstr. 4/IV, room 405

phone: 0049-89-2180-6951 (Wednesday to Friday)

e-mail: [master@econ.lmu.de](mailto:master@econ.lmu.de)

*Office Hours:* Thursday 1-3 pm and on appointment

### 7.3 Students Exchange Advisor

If you have questions concerning our academic exchange programs please contact:

[http://www.vwl.uni-muenchen.de/studium/ausl\\_studium/index.html](http://www.vwl.uni-muenchen.de/studium/ausl_studium/index.html)

Sarah Lehner, M.Sc.

Schackstr. 4/IV, room 404

phone: 0049-89-2180-6902

e-mail: [exchange@econ.lmu.de](mailto:exchange@econ.lmu.de)

*Office hours:* Wednesday 10:30 – 12:00 am

### 7.4 Student Representatives

**wasti** (Wissenschaftliche Arbeitsgemeinschaft Studentischer Interessenvertretung)

<http://www.fs-bwl-vwl.lmu.de>

Ludwigstr. 28/front building, ground floor, room 07

phone: 0049-89-2180-2021

e-mail: [externes@fs-bwl-vwl.lmu.de](mailto:externes@fs-bwl-vwl.lmu.de)

*Office hours:* Wednesday 2pm – 4pm

### 7.5 Libraries

#### Library for Economics and Business Sciences
